Computer Repair Technician (June 2013 – July 2013)

- Installing hardware and software systems
- Maintaining and repairing equipment
- Troubleshooting a variety of computer issues
- Working in a team

## **Skills Profile**

<b>Programming Languages:</b>	C#, Java, Lua, HTML, CSS, C, C++, GoLang
<b>Software:</b>	Visual Studio, Unity, Corona, Eclipse, Git, Android Studio, PowerBI
<b>Certification:</b>	77-882: MOS: Microsoft Office Excel 2010 77-887: MOS: Microsoft Office Word 2010 Expert
<b>Problem Solving:</b>	Strong analytical skills and capacity for research. Pay close attention to detail.
<b>Communication:</b>	Excellent verbal and written communication skills attained through work experience and college assignments to date.
<b>Teamwork:</b>	Excellent team working and problem solving skills, developed through group work in college and through work experience. Recognise the importance of goal setting and contributing to ensure team success.
<b>Organisation/Planning:</b>	Ability to manage multiple projects efficiently, and to meet strict deadlines.
<b>Interpersonal:</b>	Patient, can get on with a wide range of people, good listener and able to support and motivate others.

## **Project Work:**

Involved in various project work at university, presented for peer and academic evaluation.

Worked on individual and group projects using a wide array of software and coding languages:

- Created a local multiplayer game for Games Fleadh Competition
- Created a platformer game based on Noah's Ark

Working as part of these and my other game projects has greatly enriched my teamwork skills and ability to manage multiple projects professionally, and to meet and exceed targets.

## **Interests & Achievements:**

Jogging, Fencing, Board/Digital/Programming Games, Game Jams, Participating and running D&D sessions.

Volunteering as a class representative to act as a contact point between class mates and members of staff.
